HOW TO CARE:

We are confident that your new Sofia Medicine Cabinet or mirror will give you many years of trouble-free service; please follow these tips on care and cleaning of your product.

1. NEVER use glass cleaners that contain AMMONIA or VINEGAR. These are harsh chemicals that can damage the silver backing of your mirror causing it to corrode.

2. Please do not clean mirrors or medicine cabinets with tile or toilet cleaners, as these cleaners can be extremely harsh and may damage the mirror surface, finishes, and protective coatings.

3. To clean the mirrors, we suggest a mild soap and water solution, please be sure to dry all surfaces when finished.

4. Please do not handle mirrors if you have chemicals on your hands. Nail polish remover, silicones and any chemical cleaners that are used to clean tiles, should be avoided at all times.

5. It is recommended to spray cleanser first on towel or microfiber cloth and then wipe down mirror. Avoid spraying directly on glass.

6. Be mindful when filling cabinet with products to avoid placing items or bottles behind the hinges, as this may restrict their functionality causing potential hardware failures.

Use your cabinet in good health.
