### **WARNING!! PLEASE DO NOT REMOVE THE PROTECTIVE CORNERS UNTIL YOUR INSTALLATION IS COMPLETE!!**

1. DETERMINE WHERE YOUR CABINET WILL BE INSTALLED, MAKING SURE THAT IT IS CENTERED TO YOUR SINK OR VANITY, SO NOT FORGET THE CLEARANCE REQUIRED FOR THE FAUCET.
2. PLACE LEVEL ON THE WALL WHERE THE BOTTOM OF CABINET WILL BE INSTALLED AND DRAW A LINE. IT IS RECOMMENDED THAT THE CABINET BE INSTALLED TO STUDS, IF THIS IS NOT POSSIBLE, THEN PROPER ANCHOR MUST BE UTILIZED TO INSURE MAXIMUM SUPPORT (SORRY WE DO NOT SUPPLY ANCHORS DUE TO THE VARIETY OF WALL THICKNESS)
3. INSERT THE SMALL BRACKETS (SUPPLIED) INTO THE OPENING ABOVE THE CABINET; SLIDE ONE TO THE LEFT, ONE TO THE RIGHT.
4. LIFT THE CABINETS ABOVE THE CHANNEL AND LOWER IT UNTIL IT ENGAGES THE CHANNEL, CONSTANTLY APPLYING SLIGHT PRESSURE TO THE CABINET.
5. SLIDE THE TOP MOUNTING BRACKETS TO THEIR PROPER LOCATION AND SCREW INTO WALL (REMEMBER THE TOP BRACKETS ARE WHAT KEEPS THE CABINET TO THE WALL, SECURE THEM PROPERLY!!)
6. AFTER YOU ARE SATISFIED WITH THE INSTALLATION, YOU MAY REMOVE THE CORNER GUARDS.
7. ON THE TRIM MIRROR SUPPORTS YOU WILL SEE STRIPS OF DOUBLE-SIDED TAPE. REMOVE THE PROTECTIVE LAYER ON THE SINGLE STRIP, ALIGN THE TWO TRACKS OF THE MIRROR SUPPORTS TO THE SIDE OF CABINET, AND SNAP IN PLACE, FOLLOW THESE STEPS AND ATTACH ONE TO THE TOP, THE CENTER, AND LOWER SIDES OF THE CABINET.
8. REMOVE THE PROTECTIVE COVERING FROM THE TAPE, ALIGN THE SIDE TRIM MIRRORS AND APPLY MODEST PRESSURE TO THE CONTACT AREAS.
9. YOUR CABINET WAS PROPERLY ADJUSTED AT THE FACTORY, BUT DEPENDING ON THE PLUMB OF YOUR WALL, YOU WANT TO FINAL-ADJUST THE DOOR (DOORS)

CONGRATULATIONS! YOU HAVE COMPLETED THE INSTALLATION OF YOUR NEW CABINET, WE ARE SURE THAT IT WILL GIVE YOU ENDLESS YEARS OF SERVICE. THANK YOU FOR YOUR PURCHASE.
